

1. What interests you about the fellows program, and what do you hope to gain from participating in it?
2. Describe your research question, idea, or interest.
  - a. What kind of information do you anticipate needing access to for your research?  
(note to us: anything that would be barrier - language, accessibility, etc.)
3. How do you think digital tools could enhance your research on your topic?
4. You will be working with a cohort (small group) of peers in this program. What strengths you will bring to the group, and what kind of support do you hope to gather from other members of the group?
5. Do you have any questions for us?

Note to Courtney/Carrie: reiterate the timeframe and expectations and ask if they would have any issues. Someone is bound to need to be away at some point for something. Make sure they understand they also cannot take a summer class and/or participate in any other summer research program.
